

**mira**

## Mira: the most trusted hormone monitor

Mira is a palm-sized, smart hormone tracker that monitors your key fertility hormones (LH, E3G, PdG and FSH). It offers easy-to-read charts, pinpoints your ovulation day and 6-day fertile window, and confirms your ovulation.

### The Mira Monitor tracks key fertility hormones

 <p><b>E3G</b> Predict your full 6-day fertile window</p>	 <p><b>LH</b> Predict your ovulation day</p>	 <p><b>PdG</b> Confirm you ovulated</p>	 <p><b>FSH</b> Know if your body's fertility is healthy and track perimenopause</p>
---	--	---	---

### How it works

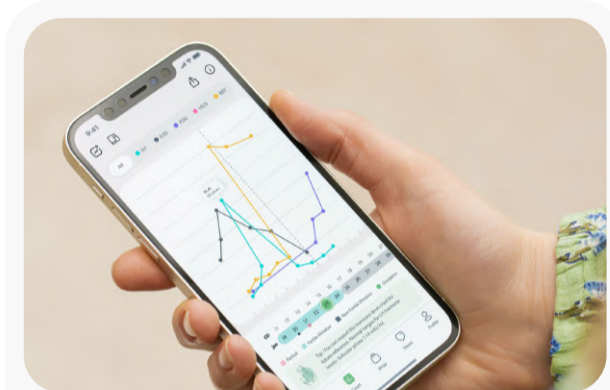

The Mira App's advanced algorithm provides accurate and personalized information about your cycle, hormone levels, and fertile window.

**Step 1**  
Dip the test wand into urine for 20 seconds.

**Step 2**  
Insert the wand into the Mira Analyzer.

**Step 3**  
In 21 minutes, your hormone results will automatically sync with the Mira App.

### Who is Mira for?

Mira is for any individual or couple who is planning or struggling to get pregnant, especially for women dealing with:

- ✓ PCOS
- ✓ hormonal imbalances and irregular cycles
- ✓ transitioning off birth control
- ✓ fertility health issues
- ✓ post-hysterectomy
